Intimations.

BOVRIL ISN'T DEAR.

In fact, value for value, it is one of the cheapest drinks and one of the most economical foods that can be obtained. A cup of hot Bovril costs less than a drink of whisky, and while giving a more genuine and lasting warmth than the latter, contains, in addition, the nutritive principles of beef worth many times its cost.

Old fashioned beef teas and meat extracts, whether known as such, or disguised under more pretentious modern names, contain none of the NUTRITIVE properties of beef. Baron Liebig himself admitted this fact; there is not a doctor to-day disputes it. Used as a nourishing agent, it is probably the most valuable nutritive article one can buy. Bovril one of the cheapest.

BOVRIL AT THE FRONT.

Bovril has played such a conspicuous part in South Africa that it forms no inconsiderable feature of the story. The "Lancet" has had frequent references to Bovril in the reports of the officers of the Royal Army Medical Corps. Nearly every newspaper correspondent has had to refer to Bovril to make his story complete. Rudyard Kipling and Boden-Powell have written their Bovril stories. Over 500 British hospitals and similar public institutions use and prescribe Bovril, not beef tea, but Bovril.

The reason is not far to seek. Bovril is a nourisher as well as a stimulant. It contains the albumen and fibrous, the sustaining properties of the beef. It is this fact, together with its absolute purity, that commends Bovril to physicians and scientists, and proves in practice what it demonstrates in analysis.

EXPENSES OF CHINESE MINISTERS.—
A certain Taotai, in an interview with Prince
Ching, brought forward the question of
economy, remarking that the expenses of the
Chinese Ministers abroad might be lessened.
In reply Prince Ching said that the expenses
allowed for the Minister to St. Petersburg were

do, and besides, as requested, China intended
to send one minister to Belgium and the
Netherlands, and another to Austria.

OPENING OF MORE TREATY PORTS.—
The Chinese Commissioner H.E. Sheng Hsuan
Huai, in reply to Sir James MacKay's request
respecting the opening of Chang sha and
Chang to treaty ports and foreign settle-

CHINA SUGAR REFINING CO.,
LIMITED.

The twenty-fourth annual general meeting of shareholders in the above Company was held at noon to-day at the offices of the general agents, Messrs. Jardine, Matheson & Co. The Hon. J. J. Bell-Irving (chairman) presided, and the others present were the Hon. C. P. Chater and Messrs. D. M. Moses, C. S. Sharp, R. C. Wilcox (consulting committee), G. C. Anderson, S. A. Joseph, J. McG. Forbes, A. Rodger, A. G. Stokes, F. Smyth, W. H. Gaskell, E. C. Emmett, J. R. Michael, Ho Fook, J. Barton (secretary), etc.

The notice convening the meeting having been read.

The Chairman said:—Gentlemen, with your permission I propose as usual to dispense with the reading of the report and accounts, which were issued some days ago. As mentioned in the report, the refineries were kept well employed during the year, the quantity of sugar dealt with being larger than in 1900. In Japan the demand for sugar was stimulated during the first two months of the year by the expectation that a heavy excise tax would be imposed by the Government on the 1st of April, and consumers were therefore anxious to lay in stocks in anticipation of it. The imposition of this tax was, however, ultimately postponed until the 1st of October, and we took advantage of this delay to lay down a considerable quantity of sugar, on our own account, the production of which enabled us to keep the refineries at full work during the summer months. Large quantities of refined beet were also imported into Japan before the 1st April and 1st October, thereby causing, during the period under review, slow clearances on markets which were overloaded with the article, and for that reason, as also to the financial stringency prevailing in Japan, the sum appearing in the balance sheet at debit of sundry creditors, viz., \$4,722,000, is larger than in previous years, and consequently the amount at debit of interest account has also proportionately increased. With regard to China, I am pleased to state that there has been a steady increase in consumption during the year, and so far as I am able to judge, this is likely to continue. I regret to say, however, that although consumption has been upon the whole good, the prices realised have not been as satisfactory as could be wished, but this is explained by the enormous fall in the value of sugar which has taken place all over the world. During the first seven months of last year prices of raw beet sugar in Europe, then quoted at 9/- and over per cwt., were regarded as being at a moderate level, and although there were indications of over production, it was thought by those experts best qualified to judge that if it declined to about 8/- per cwt. the cost of production would probably be reached, and that there was not much fear of a further depreciation; unfortunately, however, these forecasts proved incorrect, as in consequence of the operation of the bounty system in beet-growing countries, and of unexpectedly large supplies which have pressed on the market, prices have steadily declined, and Beet Sugar is now quoted at the unprecedentedly low figure of 6s. 6d. per cwt. If there was no prospect of relief from such prices, the future would appear to be gloomy in the extreme, but fortunately, as you are doubtless aware from what has appeared in the public prints, a convention has recently been signed in Brussels under which all bounties will be abolished on the 1st of September, 1903. It is yet too soon to forecast the effect which this will have upon values, but it is obvious that it will be beneficial, and for the first time for many years the cane and beet industries will compete on level terms. In this connection I may mention, as a matter of interest, that Mr. Licht, the most eminent authority on sugar statistics, estimates that the quantity of European beet sugar which was benefited by bounties, direct and indirect, during last year reached the enormous total of 3,300,000 tons. You will readily understand, however, that such a severe fall in prices as I just now mentioned is doubly prejudicial to our trade in the East, as it enables European shippers to lay down refined beet to compete with us in all Eastern markets at very cheap rates, and also depreciates the value of the stock of raw sugar, which as I have explained at previous annual meetings of this Company it is always necessary for us to purchase several months ahead of our requirements. Under these circumstances, we have deemed it prudent to value our outstanding shipments on 31st December at a figure, which I estimate will leave a considerable margin as a set-off against the depreciation in value of our stock of raw sugar, which has to be worked off. You will gather from the remarks I have made that the prospects for our industry until the abolition of bounties takes effect are not overbright, but I hope we may look forward with some degree of confidence to more prosperous times when we are freed from the unfair competition of beet sugar. Before passing the adoption of the report and accounts I shall be pleased to answer any questions.

There were no questions, and on the motion of the Chairman, seconded by Mr. Stokes, the report and accounts were adopted.

On the motion of Mr. Michael, seconded by Mr. Smyth, the Hon. C. P. Chater and Messrs. D. M. Moses, C. S. Sharp, and R. C. Wilcox were re-elected to the consulting committee.

Mr. Gaskell proposed the election as auditors of Messrs. Thomas Arnold and W. H. Fols.

This was seconded by Mr. Emmett and carried unanimously.

The Chairman.—To-morrow being a holiday, dividend warrants will be issued, on application here, on Saturday morning. That is everything, gentlemen, and I thank you for your attendance.

LUZON SUGAR REFINING CO., LD.

The twentieth annual general meeting of shareholders in this Company was held at the offices of the general managers, Messrs. Jardine, Matheson and Co., at 12.15 p.m. to-day. The Hon. J. J. Bell-Irving (chairman) presided, and the others present were—Messrs. H. P. White, C. S. Sharp (consulting committee), I. McG. Forbes, C. W. Dickson, A. Rodger, K. Ross, Ho Tung, Ho Fook, Lo Cheung Shiu, J. Barton (secretary), etc.

The notice convening the meeting having been read.

The Chairman said:—Gentlemen, the report and accounts having been in your hands for some days, we will, as usual, with your permission, take them as read. You will, I think, have been somewhat prepared for the unsatisfactory statement of accounts submitted for your adoption, as it will be within your recollection that at the last annual meeting the Chairman mentioned that it had then been found necessary to close the refinery, and that the prospects of being able to resume work were remote, inasmuch as there was no outlet for our sugars except a small local demand insufficient to keep the works going for any lengthened period. I regret to say that matters in this respect did not improve during the year, as the works have been silent ever since, nor can I hold out any definite hope at present, of their being able to start. I may here remind you that this industry was originally started primarily with the object of refining sugar for the Spanish market, into which, so long as the Philippines remained a Spanish possession, it was admitted free of duty, and that until the American occupation the greater part of the output of the refinery was shipped to Spain, which formed the only regular outlet, the local consumption of refined sugar being always limited. Since the American occupation of the Islands took place, however, the Spanish market has remained entirely closed to us. Moreover, in consequence of the disturbed state of the country, the production of the sugar estates in the Philippines has been greatly curtailed and it would therefore have been difficult to procure the necessary supplies of raw sugar at prices which have left any margin of profit on refining, even, if there had otherwise been sufficient inducement to resume work. It is obvious, gentlemen, that the present state of affairs cannot be indefinitely prolonged, and that if we are unable to find a regular and profitable outlet for our refined sugars, the business must sooner or later come to an end. As you are no doubt aware, the commercial relations between the Philippines and the United States have been much discussed during the past year, and in some quarters it was thought possible that the Islands might be put upon the footing of a State, involving the abolition of all duties between them and America. In this event the prospects of sugar refining in Manila would no doubt be radically changed, as free trade would open out a market for Philippine sugar in America. The Bill recently passed as a temporary measure by the United States Government only provides, however, for a reduction of 25 % on the existing tariff, and although we are unable at present, in the absence of full details, to judge of how this will benefit us, I fear that the relief will be insufficient to materially improve the prospects of the Company, so far as the American market is concerned. The outlook, therefore, for the time being is gloomy, but I would recommend a little further patience on the part of shareholders, who possess a property which, though deteriorated by a combination of unforeseen events, might under certain circumstances appreciate considerably in value. It may be of interest to you to know that certain enquiries were made of my last year evidently with a view to the purchase of your property, but these did not result in any reasonable offer. I do not know of anything which I can usefully add to these remarks, except to say that the buildings and machinery at Malabon are being maintained in as good order as possible, and that current expenses are being kept down to the lowest point. Before moving the adoption of the report and accounts I shall be pleased to answer any questions.

There were no questions, and on the motion of the Chairman, seconded by Mr. Ho Tung, the report and accounts were adopted.

Mr. Ross then proposed the re-election as consulting committee of Messrs. H. P. White and C. S. Sharp, and this, after being seconded by Mr. Rodger, was carried unanimously.

On the motion of Mr. Ho Fook, seconded by Mr. Lo Cheung Shiu, Mr. Thomas Arnold was re-elected auditor.

The Chairman.—That is all the business, gentlemen; thank you for your attendance.

POISON DISTRIBUTED free of cost to every household in Sydney, for the purpose of destroying rats is one of the methods being adopted by the authorities to stamp out the plague. Threepence per head is being paid for all of these rodents.

THE PLAGUE DOCTORS.—A Manila paper says. At a full meeting of the Hongkong Sanitary Board on March 10th, it was announced that no doctors could be obtained from India who would come to Hongkong under the conditions named by the Government, to help in stamping out the plague. This decision causes food for reflection; for the average duly certified Indian doctor, on possessing the highest degrees from the Calcutta and Bombay colleges, can be obtained for a salary ranging from fifty to one hundred dollars per month for work on the different tobacco estates in Delhi and Labuan. The native medical therefore either thinks that Hongkong is too dangerous a locality in which to risk his anatomy, or he is earning more where he is.

"THE BELLE OF NEW YORK."

No one will deny that the Dallas Company made a great hit at the City Hall last evening with *The Belle of New York*, nor will anyone dispute the fact that the fascinating solos and choruses were rendered in such a manner as to charm the large and delighted audience. All the parts were well taken and each of the performers are deserving of praise. Mr. Ritter Riley's *Blinky Bill* was a capital interpretation of the part and with the whistling solo, the Candy Store, he secured a good round of applause and an inevitable encore. Another favourite was Mr. Phil Carlton as *Kenneth Mugg*, while the same may be said of Harold Godwin as *Dr. Snuggins*. Miss Curtis took the part of *Fifi* and Miss Albert that of *Klissie Flingsarter*. The whole house was delighted with the performance and everyone is now looking forward to *Zaza*, which is being given this evening. There is certain to be a large house as practically all the seats are booked.

Owing to the Manila Authorities having imposed quarantine regulations on Hongkong Mr. Henry Dallas has decided to prolong his stay in the Colony, and on Monday evening next will produce, by special request, Wilson Barrett's popular play, *The Sign of the Cross*. Other pieces to be performed include *The Only Way* and *A Messenger from Mam's*.

DARING ROBBERY ON THE
WEST RIVER.

WOMAN DECAPITATED.

A special correspondent writes as follows:—

Last week a daring robbery was committed in the main street of Takching (a large town, on the West River) the robbers making off with over \$200 worth of stuff. The robbers were traced to a small village on the opposite side of the river, at the mouth of Lo-ting creek, and next evening a guard boat was sent down to arrest the robbers. On the arrival of the soldiers the robbers showed fight and during the whole night a fusillade of rifle shots was kept up between the shore and the guard boat. The Captain of the guard boat was shot through the stomach at close quarters and killed, and two of the crew were mortally wounded. Finally two women and one man of the robbers were caught and taken to Takching. At the trial it transpired that one of the women had shot the captain of the guard boat, and all three of the persons were taken back to the scene of the fight and decapitated on the river bank. This is one of the rare cases when a woman has been decapitated in China.

CORONATION CELEBRATIONS
FOR CANTON.

SUGGESTED SCHEME.

At 6 o'clock on Tuesday evening a meeting of British residents was held at Mr. F. B. Smith's bungalow, Canton, to consider what steps should be taken to celebrate the approaching coronation of His Majesty King Edward the Seventh. H.M.B. Acting-Consul General, Mr. J. Scott, occupied the chair. There was a full and representative attendance. The chairman opened the meeting with a few well chosen remarks, and then Mr. F. B. Smith suggested that a committee of three be nominated to draw up a programme for the day fixed. After some little time had elapsed a committee of eight gentlemen was appointed, it being understood that the scheme or schemes formulated should be submitted to another general meeting.

Among the suggestions made to the members of the committee were the following:—that there should be a reception at the consulate general in the morning, that a service should be held at Christ Church, that a band should be procured from Hongkong, that there should be a dinner, and that the day should be wound up with the usual display of fire works. A little outburst of loyal sentiment were punctuated with such ejaculations as "Money!" "The where-withal!" The committee was empowered to collect as many dollars as possible, and suit the scheme to the cash. There is no doubt that the British residents there will honour their King as loyally and lustily as their fellow subjects in the old country.

AS OTHERS SEE US.

CHOLERA.

In the *Manila Times* of the 19th inst. appeared the following:—

It will be a godsend if the rainy season begins early in Hongkong, for that city at present is suffering from a drought and the outbreak of the Asiatic cholera there is attributed to that. If the rains hold off until June, all mortality records will probably be broken.

The great cholera epidemic that swept Manila in 1888 followed upon a drought, and was only terminated by two typhoons that deluged the island and did great damage, but which, nevertheless, were welcome. This dreadful epidemic carried off 30,000 victims in the city and province of Manila in less than three months. In the height of it the death roll reached a thousand a day. The victims were mostly natives, but many Spaniards died of the disease. Only one Englishman succumbed, and he fell a victim to his own imprudence. On October 20 a typhoon passed over Manila causing great destruction of property ashore and aboard. November 5 another typhoon raged, and after that the cholera almost entirely subsided.

It would seem from this that the cholera germs were mostly in the atmosphere, and that if Manila is blessed with the customary down fall there is nothing to be feared. It appears that the Anglo-Saxon constitution, out of its

GIRAULT WINES, LIQUEURS, BEER, and SPIRITS.

latitude though it may be does not succumb readily to this dread bacillus. There is nothing to be done but to observe ordinary hygienic precautions, abstain from worrying about cholera and keep cool.

Meanwhile, the unfortunate residents of Hongkong have our sympathy. We hope their stricken island community will shortly be deluged by tropical downpours, and the usual conditions of health prevail. As it is, their condition is not as bad as is Kipling's "Cholera Camp," which we give here to full.

Then follow the verses referred to.

OUR LONDON LETTER.

(From our own Correspondent.)

LONDON, February 20th.

WEI-HAI-WEI.

Since the last mail I have interviewed the naval officer holding a high position at the Admiralty, who on previous occasions has provided your readers with Service's views of importance. In regard to Wei-hai-wei, he informed me, that whatever may have been said in Parliament, there had never been any serious intention of extensively fortifying the place. Naval experts had advised the authorities that any such proceeding would not only involve an enormous initial expenditure, but would remain for all time a great and unnecessary financial drain—for this reason:—A heavily fortified fort must be strongly garrisoned and held at all cost against an enemy, because if once rushed at, and a hostile force thrown in—the very armament would make of it a serious danger. Whereas in its present condition, even if the Russians were able to capture the port in the absence of our fleet, it would be re-taken at comparatively small expense. Of course in view of the strength of allied Britain and Japan in Far-Eastern waters it is exceedingly unlikely that even a sudden attack upon Wei-hai-wei could be successfully brought off by any Power. A Company of Marines will replace the native regiment for "policing" purposes.

My informant further indicated that this theory of leaving outlying posts held solely for coaling purposes (as apart from offensive considerations) was steadily gaining ground among naval experts, and it was doubtful if any more such places would receive a garrison or fortifications. "These ports and their natural protection in the supremacy of our Fleet and if," he concluded, "we can't retain our control of the seas, then we may as well throw up useless coaling stations."

A GERMAN DEAL.

Before leaving the subject of Wei-hai-wei, I may mention that strange rumours of a German "deal" are once again in the air, of which the gist is, that for consideration, we have arranged to make over Wei-hai-wei to our "friendly" Teuton neighbours. "Certainly sounds very unlikely, but then so does the whole scheme of which this is said to be a part, and which includes the gift of a port in South Africa and an understanding as to the non-increase of our navy this year. The only quid for this tremendous quo that has been suggested is, that the German Government pledges itself to permanent neutrality in Africa, and to leaving England a free hand in China. The return is so preposterous when compared with what were supposed to be, that I believe the whole idea is to be, but a nightmare, arising out of the bitterness against Germany which is to be noted wherever two Englishmen fall to discussing international politics. Neither have I been able to elicit a direct confirmation of these rumours from any reliable source.

I mention the matter, therefore, with all reserve, as probably an idle canard.

LITTLE FAITH IN SUBMARINES.

To return to naval affairs, the Admiralty has still little faith in submarines, although several of different models are in advanced stages of construction. The "eye" is, by no means perfect and so far it has been found impossible in anything but the calmest of weather to see more than a very trifling distance with it. The obvious result is that a submarine would not be able to take aim before firing a torpedo without first coming to surface. In a battle they would at present be useless, as the risk of attacking a friendly vessel, instead of an enemy, would be too great to venture. The Admiralty is rejoiced at the French Naval money being so largely expended on a machine which has no terror for us should we ever eventuate between England and France—which is not to be contemplated—there would be no likelihood of sub-marines attacking our fleet in Portsmouth Harbour, and "dealing the one deadly blow" referred to by an enthusiastic Frenchman—for the excellent reason that the British squadron would be in French waters. Against any danger which might arise from one or two of these "under-water" foes creeping through our patrols to any English port, ample precautions have been taken—though for obvious reasons they are not so much as whispered outside the Admiralty.

PRESS' CENSORS ACTIVE.

The sudden activity of the Press censors in South Africa, whereof I had my tangible proof in the recent opening of my correspondence, was explained this mail by the letter of a friend, unexpectedly ordered to Mauritius, from whence he was able to post without fear of oversight. This officer makes a most remarkable statement. "When Botha's command was defeated, early last month at Knopstad, by Rimington's troops, it was reported that not only were all the Boer Commandants' effects captured, but that Botha himself had the narrowest possible escape. Behind this news however, lay a more sensational fact. Boer prisoners are to be believed. Botha was actually taken without his captors being aware of the identity of their prize. After disarming the prisoners they were separated into parties, and it chanced that the Commandant-General remained with the group entrusted to the care of the main

GIRAULT for the Best statement of CONFECTIONERY.

guard, which, it will be remembered, was threatened by a new rapidly gathering force of Boers, that was shaken off for some hours. During the confusion of this harassing march, a few prisoners escaped, among them, by coincidence of the rest, Louis Botha. When the numbers were subsequently taken, and the remaining Boers closely interrogated, they cheerfully admitted the personality of the escaped captive. My friend makes the obvious comment that the story may not be true, as it rests only on Botha's assertion, but the object of a lip on this particular occasion is not to be discerned on the surface. Colonel Rimington's remarks are not recorded, but the impression was given that they were not entirely of a nature to suit the gentlemanly readers of the *Hongkong Telegraph*.

Another correspondent writing from Johannesburg makes mention of the "open" secret, which, however, had not yet reached print in England, that Lord Milner and Kitchener are not on good terms, and show little inclination to work together, to which observation is further added the melancholy sentence, "We out here do not expect peace much before next Xmas."

PRETORIA, THE CAPITAL.

The announcement made a day or two ago, that Pretoria will remain the capital of the Transvaal under the new government, has elicited much comment and many objections—but the general impression seems to be that the arrangement will not be permanent, and that when money is forthcoming for the erection of suitable government buildings in Johannesburg, the Administration will remove thither. A great many cogent reasons are advanced by those with Rand interests, why this change should take place, and it is urged on all hands that the authorities will find it easier to establish a pure government, away from all the jobbery, speculation and general dishonesty which has always been rampant in the town which formed the headquarters of Kruger's corrupt oligarchy. More pressing, in my opinion, than either of these arguments, is the sanitary aspect of the question. For several months in the year, Pretoria is unhealthy, while the great mining capital is comparatively cool, dry, and free from fever, even in the height of summer.

THE REMOUNT SCANDAL.

The home side of the war has been sensational this week. The Remount Scandal has reached a point which almost threatens the government, so strong is the indignation aroused over the apparent shielding of incompetence and wastefulness. It came quite as a surprise when Lord Lansdowne, after considerable hectoring from the Opposition side, and when he had exhausted all his efforts at diplomatically fencing, admitted that General Truman had practically been dismissed from his post as head of the Remount Department. His "demand" of an official enquiry into his conduct of that department, of which a good deal was indirectly made in the House of Commons in the earlier stage of the discussion, is now admitted to have been practically forced upon him by his superiors. No one wishes to prejudice that officer's case, but the mere fact that his resignation was requested naturally disposes of the public unfavourably—and at least so it seems to the civilian mind—must surely prejudice, to some extent, the professional court, which is to report to the Commander-in-Chief. He has, by his action, already passed judgment. Military justice is truly an impossible tangle of absurdities.

Meantime leaving General Truman on one side, the Press and people of Great Britain are agitating with considerable vehemence for an answer to such questions as these—

Is it true that while plenty of other British steamers were anxious to carry horses from Argentina to the seat of war at ordinary rates, the contract was left solely in the hands of Houlder Bros. who charged £145 per horse, when it is now known that £7 would have allowed them good profit? Or again—Were Messrs. Houlder paid an average of £13 per horse carried from Australia to the Cape—when other firms were shipping at the rate of £8 per head.

WAR OFFICE CONTRACTS.

There is undoubtedly going to be a big commotion about the whole subject of War Office Contracts, which so far as the evidence has yet been produced, seem to have been scandalously mismanaged, and to have cost the unfortunate taxpayer, many millions of pounds, and of which the further result will only be known when the Budget tells us what more we are to give—not to maintain the Empire no one grudges their last sixpence for that purpose—but to make good the deficiency in brains, honesty, or both, of those who have had the spending of public money during the last two years.

The test match, *fiasco* has produced the usual flood of doleful comment. It is indeed difficult to imagine what induced the painful rot which enabled Australia to dismiss Mr. MacLaren's men for 99 in their second venture. Probably the discomfiture of the Captain at the beginning had something to do with it, but in any case the Australians won on their merits and will receive the warmer welcome in England when a few months hence they renew the struggle on home wickets.

The recrudescence of smallpox in London and its spread to many parts of the country, caused a good deal of interest to attach to the Parliamentary discussion of the Conscience Clause in the Vaccination Act which took place this week. Despite the urgent promptings of medical science, and notwithstanding the public anxiety to stamp out the disease before the near approach of the Coronation month, the Peers refused to repeal the obnoxious words which permit any ignorant fanatic to make of himself a possible centre of infection, and to expose the lives of his helpless children to the ravages of this white plague.

G. W. HANCOCK, GENERAL GROCERIES, PROVISIONS AND BAKERY.

GRANDMOTHERLY EDUCATION.

Another refusal of the Peers is received with far more mixed feelings. Lord Avebury's, *Early Closing Bill* thrown out on Tuesday was an excellent specimen of grandmotherly education, for though it may be needful to protect the shop assistants, many of whom are young women—greatly underpaid—it is quite a different matter to say to a grown man that he shall not, if he sees fit, keep open his establishment and labour himself—or hire extra servants to work such hours as exceed the limits laid down by law for the employment of ordinary hands.

At Ranelagh, just in time before the partial thaw of Tuesday night, the Club held their great Skating Carnival. The large lake and all the bridges were outlined with Chinese lanterns, while on the Central Island great blazing logs gave out at once a vivid light and pleasant warmth. The ice was good and the skating excellent, while the varied colours of dominoes and fancy dresses added a final touch of beauty to a scene which the weather does not often permit in England.

THE NAGASAKI MUNICIPALITY, owing to the recent case of plague discovered there, has decided to again offer rewards for rats caught and brought to them.

IF CHOLERA BECOMES WORSE in the Colony the *Manila Times* thinks that more stringent regulations will be enforced and perhaps the port of Hongkong and the southern China port will be closed. A correspondent has written to that journal as to the advisability and necessity of a rigid blockade against the importation of Mexican and other coin, which is at present being so largely carried on. He states that these coins are deservedly considered to be carriers of the disease, passing as they do through so many, and may be contaminated hands. As to the soundness of this contention there can be no question, laboratory tests having clearly proved that germs are transmitted by such means.

NOTICE.

THE SECOND VOLUME OF BOX'S EXCHANGE TABLES with Rates in 1/16ths from 1/10 to 1/16 down to 1/16, is now in the bookbinders' hands and will be published next week. These Tables, which run in columns of 100, from 1/100 down to 1/10, and from 1/10 down to 1/100, enable the user to arrive at the value in Dollars of any sum in Sterling under £1,000 by simply adding the equivalent of the Shillings and Pence to that of the Pounds; or to get the value in Sterling of any Sum of Dollars and Cents under \$1,000 by adding the equivalent of the Cents to that of the Dollars. By these simple means of computation a very considerable saving of time and trouble, besides securing a ready means of proving accuracy is secured, as is illustrated in the following examples. To reduce £879.17.11 into Dollars at Exchange 1/10 1/16:

£879. 0. 0 = \$9,561. 926

17. 11 = 9. 745

\$9,571. 671

whereas with the other exchange books the process would be as follows:

£800. 0. 0 = \$8,700. 550

70. 0. 0 = 701. 473

9. 0. 0 = 97. 904

17. 0. 0 = 9. 247

11. 0. 0 = 0. 497

\$9,571. 671

or to convert the dollars into sterling at the same rate of exchange:

\$9,000.00 = £827. 6. 10. 3

\$71.00 = 52. 9. 11

\$71.00 = 1. 2. 13

\$79.17.11.00

but by other books it would be:

\$9,000.00 = £827. 6. 10. 3

\$500.00 = 45. 10. 3. 4

\$70.00 = 6. 8. 8. 6

\$1.00 = 1. 10. 1

\$1.00 = 1. 1. 3

\$70.00 = 1. 9

\$1.00 = 1

Every care has been taken in compiling these Tables to insure their accuracy and even as the book was being printed the last impression of each sheet was taken and carefully rechecked by two separate persons and any little errors in reading which will crop up in such works as these are carefully corrected in each copy before it is issued, thus making it a most accurate and useful book. Subscriptions for this and the previous volume, may be sent to the *Daily Telegraph* Office, Price \$10 per copy. Hongkong, 10th February, 1902. [172d]

ST. JOSEPH'S COLLEGE, HONGKONG.

OWING to the insufficiency of accommodation in the present building and the increasing demand for admission, it has been found necessary to extend the wings of the main building and to enlarge the Chinese department by an additional storey with two wings. The estimated cost will amount to over \$15,000. To cover these expenses we appeal to the liberality of all friends of Education. The establishment has been in existence for the last 25 years and is open to all classes. Much of the clerical work of the city is carried on by its past pupils. As this is the first time we have applied for assistance we expect a generous response. The names of our most liberal Benefactors will be inscribed upon marble tablets, as a lasting testimony of their generosity. THE CHRISTIAN BROTHERS. Hongkong, 22nd November, 1901.

DRESSMAKING DEPARTMENT.

This section of our business is a new venture and has met with extraordinary success during the past 4 months. All work cut and supervised by our dressmaker who, having had High Class Colonial and Home experience has attained the knowledge required to connect Style and Fashion with comfort in creating suitable toilets for Eastern wear. We intend making this department a specialty and ladies will do well to give us a trial. Our London and Parisienne buyers have Instructions to keep us up to date and supplied with all the latest and most Fashionable Goods so that our patrons may be assured of procuring everything of the newest and best. Ball Dresses, Bridal Gowns, Afternoon Costumes. Mourning orders executed at shortest possible Notice. Space will not allow us to quote the thousands of articles stocked in this establishment but two words will convey all that is necessary viz GENERAL STORE. Do not fail to enquire for ANYTHING you may want.
